

PRESS RELEASE

A4BLUE INVITES YOU TO ITS FINAL WORKSHOP

The EU-funded project will organise a workshop in the framework of the event “SMART INDUSTRIE: Quelle place dans ma PME?” on the 19th September, at ICAM in Toulouse, France

Eibar, 9 September 2019 – [A4BLUE project](#) is glad to invite you to the event “*SMART INDUSTRIE: Quelle place dans ma PME?*” organised in collaboration with the [Aerospace Valley](#) - the most important cluster in France in the fields of aeronautics, space and embedded systems - and [ICAM](#) (Institut catholique d'arts et métiers – Engineering School) where the event will take place on the 19th September 2019 (75 Avenue de Grande Bretagne, Toulouse, France). The event will gather SMEs, Large companies, researchers and worker representative in the field of aeronautics to discuss about the place of automation and smart devices in the factories of the future.

A4BLUE will contribute to this debate with its final workshop dedicated to the social acceptance of automation (14:00-16:00) where the project partners will show the results obtained in the framework of their research and illustrate the methodology developed to determine the optimal balance between human workers and automation in an assembly process, with the aim to increase productivity and worker satisfaction at the same time.

Moreover, the Marketplace session will allow you to take part in interactive exhibitions and demo sessions, where A4BLUE tools and solutions for the Factories of the Future will be showcased. For example, participants will have the occasion to try the smart tool and AR technologies for the off-the-job training developed in the AIRBUS use case and the and learn more about the methodology for the optimal level of automation for a sustainable factory.

You can find the agenda of the event and book your place (€ 20 for Aerospace Valley members and € 40 for non-members) at this [link](#). French will be the language of the event, English translation will be provided to participants.

About A4BLUE project

A4BLUE project has been funded by the European Commission in the frame of Horizon 2020 TOPIC FOF-04-2016 (GA n. 723828). The 3-year project is carried out by a first-class international consortium led by IK4-TEKNIKER (Spain) and involving prestigious universities such as RWTH Aachen University (Germany) and Cranfield University (UK) and companies such as AIRBUS Operation SAS (France), Compañía Española de Sistemas Aeronauticos - CESA (Spain), Engineering-Ingegneria Informatica SPA (Italy), Illogic srl (Italy), Ingeniería de Automatización y Robótica KOMAT SL (Spain) and CiaoTech srl (Italy).

This project has received funding from the European Union's Horizon 2020 Research and Innovation program under Grant Agreement n° 723828
